Front-End Developer | JavaScript, React, HTML, CSS, Tailwind

Profile

A detail-oriented Front-End Developer with 3+ years of experience crafting responsive, accessible, and user-friendly web applications. I specialise in JavaScript and modern frameworks like React and enjoy translating complex requirements into elegant digital experiences. I've worked across both agency and startup environments, and thrive when solving real user problems through clean, scalable code.

Technical Skills

Languages & Tools: JavaScript (ES6+), HTML5, CSS3, React, Next.js, Tailwind CSS, Sass, Git, REST APIs
Design & Workflow: Figma, Adobe XD, Postman, Chrome DevTools, Netlify, Vite, npm, VS Code

Selected Projects

Spellbound | Front-End React App
Built with React, Tailwind CSS, MongoDB, REST API Integration
Displays New York Times Best Sellers with search, category filters, and personalised recommendations. Uses MongoDB to store data and avoid API rate limits, with refresh notifications for updated content.

Silke | Front-End React App
Built with React, Tailwind CSS, JavaScript, REST API Integration
Analyses real-time weather data to help users determine if their silk press will last in current conditions. Focuses on humidity and dew point to support hair care decisions with a smooth, responsive UI.

Experience

Frontend Developer Intern
APIDNA – Luxembourg, EU
May 2024 – September 2024
- Developed a React-based UI for comparing data sets via RESTful APIs, increasing user engagement by 15%.
- Debugged and tested team code across time zones, reducing bug-related delays by 22%.
- Led weekly client presentations and sprint updates, improving communication and client satisfaction.
- Used Kanban boards to manage tasks and boost sprint output by 3x.

Frontend Developer
Wavemaker UK – London, UK
Oct 2022 – Present
- Built responsive HTML/CSS display banners from Figma and XD, cutting creative production costs by 35%.
- Improved developer workflow by creating reusable coding solutions, increasing team efficiency by 38%.
- Ensured technical feasibility of designs and maintained documentation for client-standard codebases.

Education & Training

Certificate Frontend Developer (Grade A) | Edx Bootcamp, London, UK
Certificate Fullstack Development (Merit) | Code Institute, Ireland, EU
Bachelor of Arts, Marketing with Advertising (2:1) | University of Hertfordshire, Hatfield, UK
